Ideas For Transformation

Corporate Profile 2026

SAP Business One • Business Advantage ERP • Digital Solutions

About VisionVox

VisionVox Consulting is an emerging leader in the IT consulting industry, delivering high-quality ERP and technology consulting services that transform our clients' operations. We specialise in SAP Business One and Business Advantage ERP — equipping organisations with the tools, processes, and expertise needed to thrive in a competitive marketplace.

Cross-disciplinary, customer-first thinking underpins every engagement we deliver.

“We make cross-disciplinary connections and apply knowledge synergistically — because if we are not thinking customer, we are not thinking.”

“With our eye on a common future and sharing the pleasure of success together as a real partner, we are honest and passionate in our consulting work as we seek our clients’ real needs for change.”

OUR CORPORATE PHILOSOPHY

Consulting Services

Our structured consulting methodology ensures every engagement — from initial discovery to post-go-live support — is aligned with your strategic objectives and measurable outcomes.

01

Business Process Redesign

We analyse your current workflows, identify inefficiencies, and map them to the optimal combination of best-practice and technology — ensuring your implementation delivers measurable results from day one.

02

Requirements Gathering

Our consultants facilitate structured discovery sessions, produce insightful RFPs, and objectively evaluate software fit against your institutional strategy, objectives, and KPIs.

03

System Implementation

Whether you need a fully managed rollout or expert guidance for your internal team, VisionVox provides flexible delivery models to plan, execute, and quality-assure your ERP implementation.

04

Training & Support

We equip your end-users and administrators with targeted training programmes and responsive helpdesk support to maximise adoption and minimise downtime after go-live.

SAP Business One

SAP Business One is a single, integrated platform designed to manage your entire business. It automates critical processes to improve operational efficiency, eliminates redundant data entry, and delivers real-time business intelligence that drives sound decision-making.

KEY CAPABILITIES

- Unified management of Accounting & Financials, Sales & CRM, Inventory & Distribution, and Reporting & Administration.
- Proactively grow your business by streamlining operations rather than reacting to day-to-day tasks.
- Eliminates redundant data entry and errors with a single integrated solution — improving process efficiency, minimising costs, and strengthening your bottom line.
- Lower technology costs and accelerate time-to-value with a solution that implements quickly, maintains easily, and requires minimal training.

Business Advantage ERP — Core Modules

A unified, high-performance platform that consolidates every business process into a single source of truth — eliminating data silos and automating repetitive tasks.

01

Financial Management & Global Accounting

Multi-company and multi-currency ledgers, customisable Chart of Accounts, budget-vs-actual variance reporting, and one-click audit-ready statements.

02

Sales, CRM & Opportunity Management

Full sales pipeline tracking from lead to closure, 360° customer interaction history, quotation-to-order conversion, and win/loss analysis.

03

Integrated Digital Presence

Native website builder, ecommerce storefront with secure payment gateways, real-time inventory sync, and a customer self-service portal.

04

Production & Manufacturing

Demand-driven work order automation, multi-level Bill of Materials (BOM) management, MRP planning, and integrated quality-control checkpoints.

05

Project Management & Human Resources

Gantt/Kanban project planning, milestone tracking, full employee lifecycle management, biometric attendance, and configurable approval workflows.

Why Choose Business Advantage ERP?

1

Unified Ecosystem

One integrated system eliminates the complexity and cost of managing multiple disparate applications.

2

Scalability

Adopt the modules you need today and expand as your business grows — no disruptive re-implementations.

3

Data-Driven Insights

Real-time dashboards and fully customisable reports give leadership the visibility needed for strategic decisions.

4

Mobile-Ready

Access your complete business suite securely from any device, anywhere in the world.

Digital Presence & Web Solutions

VisionVox designs and deploys professional, conversion-optimised websites using industry-standard frameworks — ensuring scalability, speed, and a seamless user experience across all devices.

TECHNICAL INFRASTRUCTURE

- Robust server hosting with cPanel integration for full autonomy over your file directory, databases, and server configurations.
- 256-bit SSL encryption to protect user data, build customer trust, and satisfy search-engine security requirements.

COMMUNICATION & SEARCH VISIBILITY

- Enterprise email setup (e.g. info@company.com) with Outlook integration, IMAP/SMTP synchronisation, and advanced spam filtering.
- Comprehensive on-page SEO including keyword mapping, meta-data optimisation, and technical performance tuning.

BUSINESS WEBSITE STARTER PACK

A high-speed, single-page website bundled with robust email infrastructure — everything you need to establish a credible online presence from day one.

One-Page Website

5 Business Emails

SSL Certificate

Forward Integration

Email Service Packages

BASIC

Email Branding & Setup

Custom domain email creation, Outlook / Mobile sync, and professionally designed email signatures.

ADVANCED

Deliverability Optimisation

DNS hardening — SPF, DKIM, and DMARC — to ensure your emails consistently reach inboxes, never spam folders.

ENTERPRISE

Business Productivity Suite

Full Microsoft 365 / Google Workspace integration with cloud storage, shared calendars, and collaboration tools.
